

CLUB TEXAS VOLLEYBALL - PRACTICE/PLAY PROCEDURE Update May 14th, 2020

Please follow the following procedures for practice/play. These procedures are subject to change based on current COVID-19 State and Local requirements. Club Texas Volleyball director will monitor, evaluate and adjust as those State and Local requirements change.

Parents:

Each athlete is allowed 1 parent per player to attend practice. Parent must wear face mask and practice social distancing whenever possible. You will be subject to temperature and well being check upon entering facilities. Please use hand sanitizer before entering facility. Please note: that although 1 parent per athlete is allowed, we encourage all parents to drop players off for practice and pick up when practice is complete. Absolutely no other family members are allowed (no siblings, grandparents, friends, etc.)

Players:

Each athlete is asked to apply hand sanitizer before entering building.
Each athlete must bring own water bottle and water to refill bottle. Each athlete must wear a face mask in and out of facility (athletes will remove face mask once temperature and wellness check for the entire team is complete and coach has giving authorization to do so and then put mask back on once practice is complete).
Each athlete will have temperature and wellness check.
Each athlete must have own hand sanitizer in bag for use during practice.

Coaches:

Each coach is asked to apply hand sanitizer before entering building.
Each coach will have temperature and wellness check.
Each coach must wear a face mask in and out of the facility and during practice/play whenever social distancing cannot be achieved.
Each coach to build in team breaks at least every 30 minutes in practice/play schedule to instruct team to intake water and re-apply hand sanitizer.
Coaches are instructed to encourage social distancing whenever possible in huddles, drills and play.
At the conclusion of practice, all coaches and players will sanitize balls and equipment with supplies provided by CTV. Once this is complete, coaches are to instruct players to apply hand sanitizer and put on masks.

Everyone:

If you must cough or sneeze, please do so into a tissue or the crook of the elbow.
Temperature will be taken with a non-contact thermometer. Temperature must be under 100.0 degrees F to be allowed entry.
A series of wellness questions will also be asked to be allowed entry. If Temperature or wellness questions are not passed minimum requirements, player will be asked to leave and CTV director will be in contact regarding procedure for re-entry to practice.
